# ColorSource Consoles

*"We can finally use those movers and LEDs we bought. The ColorSource board is just awesome with them."*

Is your intelligent lighting rig getting out of control?

## ***ColorSource consoles to the rescue.***

Everyone deserves protection from the bad LED lighting that comes from the lack of nuanced control. That's where ColorSource® family consoles come in. These affordable, portable desks specialize in streamlined, plug-and-play setup; when you power up a console, it recognizes intelligent lights in the rig and auto-populates them in patch. With the on-board touchscreen, you can drag each fixture into place on a customizable stage map and be programming in minutes. Available in two sizes with optional audiovisual output capability, ColorSource consoles are designed to work with the latest technology. With the flick of a fader, you can run lighting effects, mix LED colors, and – with the AV consoles – play sound and video effects. Now you can handle your rig – with style.

### **ColorSource 20 & ColorSource 40**

- ColorSource 20: 20 faders and 40 control channels (dimmers or multi-parameter devices)
- ColorSource 40: 40 faders and 80 control channels (dimmers or multi-parameter devices)
- Four configurable sliders, five configurable soft-keys and a home button
- 7" multi-touch screen for information display, control of moving light parameters and data entry
- One 5-pin XLR DMX/RDM port and one USB port

### **ColorSource 20 AV & ColorSource 40 AV**

- ColorSource 20 AV: 20 faders and 40 control channels (dimmers or multi-parameter devices) over up to five sACN universes
- ColorSource 40 AV: 40 faders and 80 control channels (dimmers or multi-parameter devices) over up to five sACN universes
- Four configurable sliders, five configurable soft-keys and a home button
- 7" multi-touch screen for information display, control of moving light parameters and data entry
- Two 5-pin XLR DMX/RDM ports and two USB ports
- One RJ45 port for lighting network connection
- 1/8" stereo audio input and output ports
- One HDMI port for video playback and external monitor functions
- Sound to light
- "Amigo" remote – works with most web browsers
