

AR2412

48KHZ REMOTE AUDIORACK

The AR2412 is a 24 in, 12 out 48kHz remote AudioRack.

AR2412 can be connected directly to an SQ SLink port, or to the dSnake port on a Qu mixer.

dSNAKE is a Layer 2 Ethernet protocol, so can be transported thru a VLAN or media converters.

AR2412 is compatible with the Qu and SQ series.

Key Features

- 24 Analogue inputs
- 12 Analogue outputs
